# PHOTOGRAPHY POLICIES

We welcome everyone to enjoy the Huntsville Botanical Garden and the many photographic opportunities that the Garden offers. We do ask that all photographers follow our requests so that we may keep the Garden looking its best at all times.

- Reservations are made through the Facility Rental office. Reservations must be made for every photography session. Showing up without reservations may result in the refusal of allowances due to events previously scheduled.
- Changing rooms may be available upon reservation. Due to many events and visitors at the Garden, changing rooms may not be available upon demand. If you need a space, please make arrangements with Facility Rental when you make your photography reservations.
- Please be careful where you stand. If you are standing in an area where there is a high flow of traffic, please be courteous to other visitors of the Garden. Please do not stand in any clusters of flowers where there is a chance that a flower may be broken or damaged.
- You may get a rain check for foul weather. If you have paid a sitting fee and have only used a portion of the time allotted because of foul weather, you may use the balance of your time another day. Please report your departure to the Visitor's Center and reschedule with Facility Rental.
