

WILDFLOWER PHOTOGRAPHY WORKSHOP

Presented by Tom and Pat Cory

Saturday, April 5, 2008, 9 a.m. to 12:30 p.m.

**Registration: \$40 members
(Limited to 40 participants)**

This workshop is being held in conjunction with a
PHOTOGRAPHIC COMPETITION AND EXHIBITION

This workshop begins with a lecture and slide show, which focuses on the basics of nature photography. Topics include film selection, composition, lighting and other subjects designed to help you improve your spring photography. Following the basics is a session concentrating on specific techniques of wildflower and close-up photography. After the formal instruction we will go out onto the grounds of the Huntsville Botanical Garden. Concurrently we will offer a session for those who would like a little help in understanding the controls on their cameras. This is a great opportunity to photograph the flowers, and perhaps to enter into the photography contest. We will be available to answer any questions that you might have while you are photographing. This workshop is perfect for photographers of all experience levels.
